

Attachment 1

a) Export: Acceptance of export containers

The following rules will be used by Uniport for the acceptance of export containers:

Question:	Y/N
May Uniport accept a container without the export booking being notified (via Coparn or Uniport Web portal)?	Y
May Uniport, if the export booking is notified, accept an additional container under this booking? (so: booking contains one container, can we accept a second container under this booking)	Y

Please advise if Uniport uses the correct procedure.

b) Depot: Acceptance depot containers

The following rules will be used by Uniport for the acceptance of depot containers:

Question:	Y/N
May Uniport accept a container without the depot booking being notified (via Coparn or Uniport Web portal)?	Y
May Uniport, if the depot booking is notified, accept an additional container under this booking? (so: booking contains one container, can we accept a second container under this booking)	Y
May an depot booking (notified by Coparn) be supplemented with the container number? (Or should booking be notified including container number?).	Y

Please advise if Uniport uses the correct procedure.

c) Import: Release full containers

Question:	
Is a release reference or Pin code required for Truck pick up your full import containers?	Release/Pin

Please advise if Uniport uses the correct procedure.

d) COARRI (Container discharge/loading report)

COARRI messages will be send in a timeframe of 15 minutes. All containers handled within 15 minutes will be in one batch.

e) CODECO (Container gate in/out report)

CODECO messages will be send in a timeframe of 30 minutes. All containers handled within 30 minutes will be in one batch.

f) Exchange method

Uniport will use the current method of exchange for all EDI messages.
Please inform if there may be changes in near future.
